## Objective:

“I am a highly motivated and results-driven full-stack developer seeking a challenging opportunity to leverage my skills and experience in a dynamic development environment. With a strong foundation in both front-end and back-end technologies, I excel at building robust, scalable, and user-friendly web applications.”

## Personality and Skills:

- Eagerness to know and learn new things.
- A team player, good at working collaboratively with people in order to achieve a common goal.

Projects:

● **Portfolio Website:**

○ The Portfolio Website was built using HTML, CSS, and JavaScript. It features a responsive design, form validation, interactive elements, and clickable project links. The site was deployed on a hosting platform like GitHub Pages for easy access and a professional online presence.

<https://atharavnikam.github.io/MyPortfolio/>

● **TaskLite:**

○ TaskLite Mini uses Python (Flask) for the backend, handling HTTP requests, and SQLite for storing task data with CRUDE operations. The frontend is built with HTML, CSS, JavaScript, jQuery for interactivity, and Bootstrap for a responsive design. Key features include task management (Create, Read, Update, Delete), a responsive interface, and a focus on simplicity and security.
